# How to sort household waste

As of April 4, Reiwa

Oyabe City Living Environment Division  
Oyabe City Environmental Health Council  
TEL.67-1760

Please help us in reducing garbage.

## Garbage classification

## How to put it out

### Combustible garbage

Put it together in a special bag, be sure to please fill in the name of the head of the household.

**Garbage** Drain the water well before running.

**Disposable diapers** (Flush the toilet for fill.)

**Leaves, grass, small amounts of wood waste** (Do not mix soil) (Within 10 cm in diameter and 50 cm in length)

**Small amounts of second-hand clothes, boro cloth, sneakers** (Remove metal and buttons)

**Paper waste** (Vinyl Sneakers are non-combustible) Wraps and toilets Paper core

- Containers using vinyl processed paper, gold paper and silver paper, wrapping paper, letters and envelopes, containers and bags attached at home, delivery paper bags and paper boxes from couriers, etc.
- If you have more than 3 bags at a time, please bring it to the Environmental Center.

### Non-combustible garbage

If you want to put it in a bag Put it in a transparent bag.

**Gold genus (with metal)**

**Fan heater** (Completely remove kerosene and batteries)

**hardware** (Cutlery is wrapped in paper and put out.)

**Small home appliances** (Unplug the battery)

**Can hammers, empty cans, Beverage Can Lid**

**light bulb** (Fluorescent lamps are harmful garbage)

- Washing machines, clothes dryers, refrigerators (including freezers), TVs, air conditioners, so please contact a home appliance dealer or a recycling association designated trading place (see the website of each manufacturer).

- Please empty cans, tempura oil cans, etc. (Soak tempura oil in cloth, newspaper, etc., or harden it with a commercially available coagulant and serve it as combustible garbage.)

- Dangerous items such as glass waste and razor blades should be placed in a can or wrapped in paper.

- We do not collect long or heavy items that cannot be loaded into the garbage truck. (The length should be within 1m and the weight should be within 20kg.)

- Please separate non-combustible garbage into three types: "metal", "plastic", and "glass / other".

### Plastics

**Stationary and Toys** (Made of iron To metal)

**Brushes**

**Videotapes and CDs** (Including cases)

**Poly Bucket**

**Tapper**

**Packing straps and nylon leas**

**Long and vinyl diapers** (Leather gusets are combustible garbage)

**Cleaning bags**

**other** Desiccant, cooling sheet, Sashim (glycerant, aluminum, leaves) Straw Spoon

**Styrofoam containers** (Cooling box)

### Glass and others

**chinaware**

**Glass pieces and Mixed Shards** (Put it in a can. Please wrap it in paper and put it out.)

**Disposable Cairo** (Bags are containers and packaging waste) (Bags of diabetic drugs, etc.)

**Makeup Bin**

### Resource waste

**Made of plastic Containers and packaging**

Put it together in a special bag, be sure to please fill in the name of the head of the household.

**Plastic bags**

**Tubes**

**Wraps for packaging**

**Made of paper Containers and packaging**

(Metal fittings take) (The core is combustible garbage)

**Paper box**

**Aluminum processed products** (Cup noodle lid) (take cap)

**Packaging and wrapping paper**

**paper bag** (Take cloth and vinyl handle)

**Bag of straws**

**Aluminum processed products** (Cup noodle lid) (take cap)

- Please wash all containers of plastic bags, containers, cans, bottles, etc. with water inside.
- Please put the paper container and packaging garbage bag in a paper bag, etc. or firmly tie it out with a white paper string. (The length of one side should be 50 cm or less.)

- Remove the metal fittings attached to the paper box of straws and foil and classify it as "non-combustible garbage metal".

- Please remove the handle of the paper bag except made of paper and classify it as "plastic containers and packaging".

- Please use paper bags when taking out paper containers and packaging waste. (Be careful not to wet as much as possible on rainy days.)

- Be sure to remove the upper pig for glass beverage bins. (Upper pigs should be classified according to the material.)

- If you can not determine the color of the beverage bin, please put it in a black bottle container. (Please determine the vinegar bottle by color.)

- Cut open the beverage paper pack, wash it off with water, dry well and put it out.

**Made of plastic Containers and packaging**

Put it together in a special bag, be sure to please fill in the name of the head of the household.

**Plastic containers** (Do not mix garbage)

**Bottles and Cups**

**Styrofoam containers** (Conditioning material)

**Wraps for packaging**

**Cap and others**

**Cans and bottles (For beverages only)**

**Glass (Colorless)** (Frosted glass)

**Glass (Brown)**

**Glass (other colors)** (Colorless and non-brown)

**Aluminum cans and bottles**

**Aluminum cans and bottles**

**Steel cans**

**PET bottle** (For beverages and big size and take only cooling of PET bottle to combustibles) (The cap and label are "plastic" containers and packaging.)

**Paper Pack** (Processed aluminum products Except)

### Harmful garbage

After confirming the sorting container of the accumulation location, Put it in the right place.

**Spray cans and cassette cylinders** (make a hole)

**thermometer** (Mercury type)

**lighter** (Use up the contents)

**Batteries and mobile batteries**

**fluorescent lamp**

**mirror**

- Hazardous waste contains heavy metals in the product, so put it in a transparent plastic bag so that it will not break, and put it out in a separate collection container.
- Button batteries and rechargeable batteries can be picked up at retail stores.

### Carry-on garbage

(Charged)

**Landfill garbage**

**tile**

**Concrete pieces**

**Gutter sludge**

**Plasterboard**

**Incinerated ash**

**Non-combustible garbage**

**Metal wave tin or Guts (long objects), etc.** (Cut or fold to 1m or less, Squeeze in)

**Bicycles, tricycles, pram, silver cars**

**Skis and snowboards**

**combustibility Bulky**

**Jutan** (Fold)

**futon**

**Chests, cupboards, bookshelves, cubboards**

**Wooden desks, etc.**

**Timber**

**Personal computers, etc. Electronic devices**

**personal computer** (Printers are small home appliances)

**mobile phone**

**tablet**

**video camera**

**video game console**

**Newspapers and magazines Pruning branches, etc.**

**cardboard**

**flyer**

**magazine**

**Pruning branches** (長さ20cm以下 (Do not put impurities))

Wood furniture such as desks	1.3m×2.3m×0.6m or less
Square lumber	Diameter 20 cm or less, length within 2.3 m
Jutan	Fold it without rounding it.
futon	As it is
Fold	As it is

- For recycling, please cut the garden tree pruning branch from the home to a length of 70 cm or less and a diameter of about 20 cm or less. (Do not mix other garbage.)
- When you temporarily come out in large quantities due to moving or cleaning, please separate and bring it to each treatment site on the left.
- Business operators cannot be brought in by contracting for construction (renovation) or civil engineering work.
- Personal computers with PC recycling marks (products subject to the PC Recycling Law) can also be disposed of free of charge. For details, please refer to the homepage of each manufacturer.
- Newspaper, flyers, magazines, cardboard should be put out to collect resources such as citizen groups as much as possible.
